INVESTING IN OUR COMMUNITY

Every five years, United Way of Eastern Maine conducts a Community Mapping Assessment to closely evaluate the most pressing issues for people living in our region. This study not only identifies the needs in our community, but also identifies what work is already being done to address those needs. We use this information to help guide decisions about which programs and services your generous donation will support.

We are wrapping up our 2016 - 2021 Community Mapping Assessment and have identified the following needs as most critical in our area. Based on that information, we need your input on this key question:

**What do you think is the most pressing issue facing communities in Eastern Maine?
Please select only one.**
